

Amendments to the Drawings

The attached Added Sheet of drawings includes a new FIG. 8A. This new figure was requested and authorized to be added by the Examiner in the Examiner's Amendment in the Notice of Allowability dated January 20, 2006

Attachments: Added Sheet (FIG. 8A).

Remarks

The specification has been amended. The drawings have been amended.

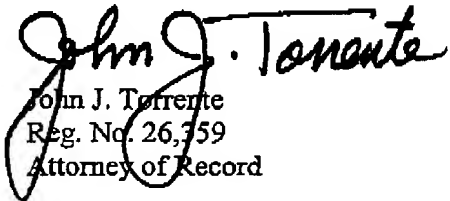

In the Notice of Allowability dated January 20, 2006, the Examiner required and authorized a new drawing figure to be added to the application "similar to Figure (8) but depicting the output of the color interpolation circuit (3) as (R, G, B) color signals and being input to the gamma correction circuit (6)." FIG. 8A added by this Amendment satisfies the Examiner's requirement. Also, the specification has been amended to refer to and explain added FIG. 8A.

It is not believed that these changes constitute new matter and it is believed that their consideration will not require a substantial amount of additional work on the part of the Office. Accordingly, entry of this Amendment under the provisions of 37 CFR § 1.312 is respectfully requested.

Dated: February 1, 2006
